CONTENTS OF VOLUME 27

NUMBER 1—JANUARY 1996

A vector autoregressive model to predict hurricane tracks
N. D. RAMIREZ-BELTRAN ... 1

Development of GERT model for precommissioning/commissioning of water treatment plant
S. H. AHMAD and M. H. ALDABBAGH ... 11

A constructive algorithm for stabilization of nonlinear neutral time-delayed systems occurring in bioengineering
A. S. C. SINHA, M. A. EL-SHARKAWY, M. E. RIZKALLA and D. A. SUZUKI ... 17

Application of generalized predictive control in MIMO systems to greenhouse climate regulation
A. GONZALEZ and J. P. LEYRIS ... 27

A chance-constrained approach to stock selection in Hong Kong
B. R. FEIRING and S. W. LEE ... 33

Computer-aided interpretation of ECG for diagnostics
S. S. MEHTA, S. C. SAXENA and H. K. VERMA ... 43

Structural adjustments and policy alternatives for the Egyptian economy
D. R. BASU ... 59

Economic theory and DEA models: a critical review
J. K. SENGUPTA ... 77

Learning automata with continuous inputs and their application for multimodal functions optimization
A. S. POZNYAK, K. NAJIM and M. CHTOUROU ... 87

Analysis of the behaviour of multilevel hierarchical systems of learning automata and their application for multimodal functions optimization
A. S. POZNYAK, K. NAJIM and M. CHTOUROU ... 97

A stability robustness analysis and design method for linear discrete-time systems with structured uncertainty
J. S. LUO, A. JOHNSON and P. P. J. VAN DEN BOSCH ... 113

Performance analysis of the single server queue with state-dependent service
T. S. S. S. RAO and U. C. GUPTA ... 121

A model-based adaptive sliding controller
T. H. LEE, J. X. XU and M. WANG ... 129

Call for Papers ... 141

Announcement ... 142

NUMBER 2—FEBRUARY 1996

Editorial—Soft computing: Elements of learning systems ... 143

Reinforcement-based learning automata

Learning automata in feedforward connectionist systems
V. V. PHANSALKAR and M. A. THATHACHAR ... 145

Adaptive selection of the optimal order of linear regression models using learning automata
A. S. POZNYAK, K. NAJIM and E. IKONEN ... 151

Relationship to B-splines

One-to-one mapping and its application to neural networks based control systems design
H. WANG, A. P. WANG, M. BROWN and C. J. HARRIS ... 161

Relationship to gaussian radial basis functions

Universal neural controllers and stability analysis
CHENG-LIANG CHEN and FENG-YUAN CHANG ... 171

Fuzzy logic

Fuzzy control of a manipulator using the concept of sliding mode
YOSHIHARU OHTANI and TOSHIO YOSHIMURA ... 179
Design of fuzzy logic controller for a class of nonlinear systems
WEN-LIANG CHEN and TI-PING CHEN ... 187
Quadratic stability analysis and design of continuous-time fuzzy control systems
S. G. CAO, N. W. REES and G. FENG ... 193
A variable forgetting factor RLS algorithm with application to fuzzy time-varying systems identification
LIANG WANG and REZA LANGARI ... 205
Active suspension of vehicle systems using fuzzy logic
TOSHIO YOSHIMURA ... 215

Neural networks

Training of Elman networks and dynamic system modelling
D. T. PHAM and X. LIU ... 221
Global exponential stability and periodic solutions of delay Hopfield neural networks
ZHANG YI ... 227
Decision trees and neural networks for reasoning and knowledge acquisition for autonomous agents
E. SZCZERBICKI ... 233

Genetic algorithms

Adaptive simulated annealing genetic algorithm for control applications
IL-KWON JEONG and JU-JANG LEE ... 241
Multicriteria optimization using a genetic algorithm for determining a Pareto set
R. VIENNETT, C. FONTEIX and I. MARC ... 255
Fuzzy modelling by genetic algorithm with tree-structured individuals
MASAHIRO TANAKA, JU YE and TETSUZO TANINO ... 261
Application of genetic algorithm to a parallel path selection problem
NOBUO SANNOMIYA and KYOICHI TATEMURA ... 269
Announcement ... 275

NUMBER 3—MARCH 1996

Dynamic data envelopment analysis
J. K. SENGUPTA ... 277
Theory of systems efficiency: models and applications—a review
J. K. SENGUPTA ... 285
Sensitivity analysis of SISO control systems using Wigner distribution
G. JUMARIE ... 299
Stochastic modelling of a powerloom plant with common cause failure, human error and overloading effect
D. PANDEY, M. JACOB and S. K. TYAGI ... 309
Improving productivity via technology and management
CHIANG KAO, SHYANJAW KUO, LIANG-HUSUAN CHEN and TAI-YUE WANG ... 315
Modelling the performance of a client/server database system
HEESEOK LEE ... 323
A note on finite replenishment inventory systems with continous deterministic demand
C. KOULAMAS ... 329
A fuzzy neural network based extended Kalman filter
CHUN-TANG CHAO and CHING-CHENG TENG ... 333
Modelling of dynamic flows in cellular mobile networks
P. T. TAN, E. GUNAWAN, C. B. SOH and B. H. SOONG ... 341

Correspondence
Comments on 'State observation of a fixed-bed reactor based on reduced bilinear models'
H. Rafaralahy, M. Zasadzinski, M. Boutayeb and M. Darouach ... 349
Announcement ... 353

NUMBER 4—APRIL 1996

Controlling Lorenz chaos
Xinghuo Yu ... 355
Optimal scheduling of products with common and unique components
Ching-Jong Liao ... 361
Necessary and sufficient conditions for robust oscillation
Dao Yi Xu ... 367
Infinite-horizon continuous-time growth models
D. Kravvaritis and N. S. Papageorgiou ... 373
An inventory model with variable levels of quality attributes via geometric programming
D. Soesilo and K. Jo Min ... 379
A binary relation inference network—Part 1: General concepts
K. P. Lam and C. J. Su ... 387
A binary relation inference network—Part 2: State-space techniques
K. P. Lam ... 399
A resource allocation problem on timed marked graphs: a decomposition approach
Hiroshi Shimohata, Seiji Kataoka and Takeo Yamada ... 405
Some remarks on general systems
Qing-Ping Hu and Yi Lin ... 413
ILC for non-minimum phase system
Cheol Lae Roh, Moon No Lee and Myung Jin Chung ... 419
The effect of engineering cooperative experience on graduate starting salaries
S. Dowlatshahi ... 425
Announcement ... 431

NUMBER 5—MAY 1996

A fuzzy goal regression model for the construction cost estimation of municipal waste incinerators
Ni-Bin Chang, Y. L. Chen and H. H. Yang ... 433
Relaxation optimizing operations in extended probabilistic space
Takahiko Horiuchi, Kazuhiko Yamamoto, Hiromitsu Yamada and Kazuo Toraichi ... 447
A software cost model with imperfect debugging, random life cycle and penalty cost
Hoang Pham ... 455
Design of observers for descriptor systems affected by unknown inputs
B. Gaddouna, S. Giuliani and J. Ragot ... 465
An improvement of a back propagation algorithm by the extended Kalman filter and demand forecasting by layered neural networks
Aritoshi Kimura, Ikuo Arizono and Hiroshi Ohta ... 473
Optimal discrete and continuous maintenance policy for a complex unreliable machine
D. N. P. Murthy and Ming-Chang Hwang ... 483
Estimation and filtering of nonlinear systems: application to a wastewater treatment process
C. B. Youssef, B. Dahhou, F. Y. Zeng and J. L. Rols ... 497
Scheduling deteriorating jobs on a single machine to minimize the maximum processing times
B. Alidaee and F. Landram ... 507
Optimal inventories in group technology production systems for a continuous consumption pattern
T. A. Aldowaisan, L. K. Gaafar and M. S. Mahmoud ... 511

Correspondence

Comment on 'Robust stability of a class of uncertain nonlinear dynamical systems with time-varying delay'
ZHANG YI and S. M. ZHONG ... 515

Comments on 'Second-order system models of high-order plants'
B. JAKEŠ and R. STRNAD ... 517

NUMBER 6—JUNE 1996

Adaptive fuzzy controllers of a robot manipulator
S. S. NEO and M. J. ER ... 519

Direct adaptive neural network control of robots
S. S. GE and C. C. HANG ... 533

Optimal maintenance policies for several imperfect repair models
HONGZHOU WANG and HOANG PHAM ... 543

Adjustment costs in mean-variance efficiency analysis
J. K. SENGUPTA ... 551

A two-unit system with correlated failures and repairs, and random appearance and disappearance of repairman
R. GUPTA, P. K. TYAGI and R. KISHAN ... 561

Optimal residual design for fault diagnosis using multi-objective optimization and genetic algorithms
JIE CHEN, R. J. PATTON and GUO-PING LIU ... 567

An extension to the single bottleneck transportation problem
JIANSHE DAI, DAWEI LI, YI LIAO and FEI ZHU ... 577

Output feedback ultimate boundedness control for uncertain dynamic systems with structured uncertainty
A. V. SAVKIN and I. R. PETERSEN ... 583

Feedback control of a class of nonlinear singularly perturbed systems with time delay
YEONG-JEU SUN, JINN-SHING CHENG, JER-GUANG HSIEH and CHUNG-CHENG CHEN ... 589

NUMBER 7—JULY 1996

A discrete-time coordinated adaptive stabilizer for multimachine power systems
P. IDOWU and A. GHANDAKLY ... 597

Simulated annealing algorithm for solving the single machine early/tardy problem
J. LYU, A. GUNASEKARAN and J. H. DING ... 605

A game theoretical approach to franchising arrangements
ZHIMIN HUANG ... 611

The Haar wavelets operational matrix of integration
JIN-SHENG GU and WEI-SUN JIANG ... 623

An IMM tracking algorithm with input estimation
PAN-CHIO TUAN and LI-WEI FONG ... 629

The backlog process in queues with random service speed
G.-A. KLUTKE ... 641

Singular value decomposition in multidimensional arrays
N. E. MASTORAKIS ... 647

An innovation approach to optimize a Kalman filter with an H_∞ error bound by secant method
BING-FEI WU and HUNG-HSENG HSU ... 651

Calculation of residence time for nonlinear systems
K. NAJIM, A. S. POZNYAK and E. IKONEN ... 661

A two-pass approach for optimally assigning linear tasks to multiprocessor systems
CHIUN-CHIEH HSU ... 669

Spreadability of transport systems
A. EL JAI and K. KASSARA ... 681

Corrigendum
L. T. GRUJIĆ ... 689

Call for Papers ... 691

NUMBER 8—AUGUST 1996

Editorial: Intelligent autonomous vehicles
C. J. HARRIS ... 693
Robust control laws for wheeled mobile robots
T. HAMEL and D. MEIZEL ... 695
Nonlinear vehicle distance control in longitudinal direction
R. MAYR ... 705
On the gait control of a six-legged walking machine
P. ALEXANDRE and A. PREUMONT ... 713
Position-based motion control and adaptability of periodic gaits for realistic walking machines
M. A. JIMÉNEZ and P. GONZALEZ DE SANTOS ... 723
Tracking systems for intelligent road vehicles
L. TRASSOUDAINE, S. JOUANNIN, J. ALIZON and J. GALLICE ... 731
Positioning an autonomous off-road vehicle by using fused DGPS and inertial navigation
T. SCHÖNBERG, M. OJALA, J. SUOMELA, A. TORPO and A. HALME ... 745
Map-based free navigation for autonomous vehicles
E. FREUND and F. DIERKS ... 753
Continuous mobile robot localization by using structured light and a geometric map
A. DE LA ESCALERA, L. MORENO, M. A. SALICHS and J. M. ARMINGOL ... 771
Estimation of vehicle position based on projective function using the sequence of a 2D image
N. AMANO, H. HASHIMOTO and M. HIGASHIGUCHI ... 783
Motion planning for unicycle and car-like robots
G. CONTE, S. LONGHI and R. ZULLI ... 791
Design of a robust high-performance fuzzy path tracker for autonomous vehicles
A. GARCÍA-CEREZO, A. OLLERO and J. L. MARTÍNEZ ... 799
Call for Papers ... 807

NUMBER 9—SEPTEMBER 1996

An adaptive observer for robots with persistent excitation
A. A. ABOUELSOUD, M. F. HASSAN and M. A. SULTAN ... 809
H_∞ control of nonlinear continuous-time systems based on dynamical fuzzy models
S. G. CAO, N. W. REES and G. FENG ... 821
File and workload allocation on a local multi-access computer network: incorporating local processing and communication overhead
HEESEOK LEE and GILSANG JANG ... 831
Adaptive control with expert system based supervisory functions
G. A. SULLIVAN ... 839
EOQ model for items with Weibull distribution deterioration, shortages and trended demand
A. K. JALAN, R. R. GIRI and K. S. CHAUDHURI ... 851
Dynamic input–output models with stochastic time lags
A. ĆMIEL and H. GURGUL ... 857
Performance extrapolation in discrete-event systems simulation
H. ARSHAM ... 863
Robust control design using eigenstructure assignment and multi-objective optimization
G. P. LIU and R. J. PATTON ... 871
Reliability evaluation of systems with dependent failures
A. BHATTACHARYA ... 881
A controller design algorithm for a finite number of linear systems
I. N. KAR ... 887
Brief communication
Periodic solutions and stability of Hopfield neural networks with variable delays
ZHANG YI, S. M. ZHONG and Z. L. LI ... 895
Call for Papers ... 903

NUMBER 10—OCTOBER 1996

Active noise control using a dual feedforward approach
R. J. SCHILLING, P. ZULCH, J. J. CARROLL and R. MUKUNDAN ... 905
A successive projection method for binary pattern recognition with multilayer feedforward neural networks
KEIJI TATSUMI and MASAO FUKUSHIMA ... 917
An asymptotic two-phase algorithm to minimize total flow time for a two-machine flowshop
CHAO-HSIEN PAN and CHIN-CHIA WU ... 925
A network flow approach to a city emergency evacuation planning
TAKEO YAMADA ... 931
Adaptive subsethood for neural fuzzy control
CHIN-TENG LIN ... 937
Social choice function with subordinate relations as one variable
YUICHI HATTORI ... 957
Design of robust reliable H_∞ output feedback control for a class of uncertain linear systems with sensor failure
CHANG-JUN SEO and BYUNG KOOK KIM ... 963
On misrepresentation-proof strategies in incentive design problems
CHUNHUI XU and KYOICHI KIJIMA ... 969
Quadratic spline interpolator
MASARU KAMADA, TAKAFUMI ENDOH, KOICHI ICHIGE and KAZUO TORAICHI ... 977
An equipment replacement problem with dynamic production planning and capacity considerations
A. GILL, G. K. ADIL and C. R. BECTOR ... 985
A new theory of evidence for non-exclusive elementary propositions
TAKAHIKO HORIUCHI ... 989
Reliability and MTTF prediction of *k*-out-of-*n* complex systems with components subjected to multiple stages of degradation
HOANG PHAM, A. SUPRASAD and R. B. MISRA ... 995
A simulation study on autonomous decentralized mechanism in fish behaviour model
NOBUO SANNOMIYA and M. A. DOUSTARI ... 1001
Signed directed graphs and reasoning for agents and multi-agent systems
E. SZCZERBICKI ... 1009
High gain sampled data systems: deadbeat strategy, disturbance decoupling and cheap control
H. M. OLOOMI and M. E. SAWAN ... 1017
Formulations of the capacity planning problem considering manufacturing flexibility
R. G. KASILINGAM and C. ROZE ... 1027
Observer design for discrete nonlinear descriptor systems
D. N. SHIELDS ... 1033
Inverse control for nonlinear excitation and governor control
A. IYER and G. V. SUBBARAO ... 1043
A quasi renewal process and its applications in imperfect maintenance
HONGZHOU WANG and HOANG PHAM ... 1055
Call for Papers ... 1063

NUMBER 11—NOVEMBER 1996

Editorial: Robotic manipulators ... 1065

On the robust stabilization and tracking for robotic manipulators with artificial muscles
H. SIRA-RAMÍREZ, P. LOPEZ and B. TONDU ... 1067
Suboptimal electrodrive control of a flexible manipulator
S. A. MIKHAILOV ... 1077
Near-minimum time control of flexible manipulators with a payload
A. H. ELTIMSAHY and YING CHEN ... 1083
Trajectory control of multi-link elastic robot manipulators via a nonlinear feedback controller and a robust servo controller
YOSHIFUMI MORITA, HIROYUKI UKAI and TETSUO IWAZUMI ... 1099

Robust adaptive control of an underactuated free-flying space robot under a non-holonomic structure in joint space
JU-JANG LEE ... 1113
A hybrid learning/adaptive partial state feedback controller for RLED robot manipulators
H. CANBOLAT, J. HU and D. M. DAWSON ... 1123
A neural network assisted computed torque method for manipulator tracking control problems
V. YEN and TSONG-ZEN LIU ... 1133
An approach to adaptive neural control of robot manipulators
V. ETXEBARRIA and M. DE LA SEN ... 1143
Linear and nonlinear state-space controllers for magnetic levitation
W. BARIE and J. CHIASSON ... 1153
Stabilization control of non-holonomic systems with application to rider–motorcycle systems
J. C. WU and T. S. LIU ... 1165
Call for Papers ... 1177

NUMBER 12—DECEMBER 1996

Review: Neuro-fuzzy computing for image processing and pattern recognition
S. K. PAL and A. GHOSH ... 1179
Entropy, efficiency and the productivity index numbers
J. K. SENGUPTA ... 1195
Data envelopment analysis: a new tool for improving managerial efficiency
J. K. SENGUPTA ... 1205
External environment of an autonomous manufacturing agent: dynamics and representation
E. SZCZERBICKI ... 1211
Extension of Friedland's bias filtering technique to discrete-time systems with unknown inputs
J. Y. KELLER, L. SUMMERER and M. DAROUACH ... 1219
Generalized likelihood ratio approach for fault detection in linear dynamic stochastic systems with unknown inputs
J. Y. KELLER, L. SUMMERER, M. BOUTAYEB and M. DAROUACH ... 1231
Active control for the suspension of large-sized buses using fuzzy logic
TOSHIO YOSHIMURA and NOBUYUKI HAYASHI ... 1243
Stochastic modelling of an integrated pulp and paper factory with intermediate storage
M. SAVSAR ... 1251
Application of two-phase VSC with integration compensation in speed control of a PM synchronous servomotor
RONG-FONG FUNG, FAA-JENG LIN and KEN-WANG CHEN ... 1265
Alternative designs of denominator controls for uncertain systems
Y. H. CHEN ... 1275
Control of a loaded induction machine using a feedforward neural network
M. CHTOUROU, N. DERBEL and M. BEN ALI KAMOUN ... 1287
Analysis of optimal production and advertising policies
D. I. CHO ... 1297
Chaotic responses in mathematical muscle model
FUMIHIRO F. SHOJI ... 1307
G-cactus and new results on structural controllability of composite systems
KANG LI, YUGENG XI and ZHONGJUN ZHANG ... 1313
Robust adaptive NN feedback linearization control of nonlinear systems
S. S. GE ... 1327
Forced oscillations, bifurcations and stability of a molecular system—Part 1: Non-resonance
P. YU, U. TANERI and K. HUSEYIN ... 1339
Forced oscillations, bifurcations and stability of a molecular system—Part 2: Resonances
P. YU, U. TANERI and K. HUSEYIN ... 1351
Constrained observer-based controller for linear continuous-time systems
F. MESQUINE and D. MEHDI ... 1363

A new transfer function model: the grey dynamic model GDM(2,2,1)
CHA'O-KUANG CHEN and TZU-LI TIEN ... 1371
Robust stability using interval analysis
A. PIAZZI and G. MARRO ... 1381
Minimum mean-squared error estimation of stochastic processes by mutual entropy
BING-FEI WU ... 1391
Robust filtering for uncertain systems with sampled measurements
PENG SHI ... 1403
Optimum age replacement of a system subject to shocks with random lead time
SHEY-HUEI SHEU ... 1417
A continuous-time inference network and its hybrid implementations
K. P. LAM ... 1425
Robust model reference adaptive control of nonlinear systems using fuzzy systems
CHAIO-SHIUNG CHEN and WEN-LIANG CHEN ... 1435
Approximation for Kanban production systems
YU SONG and YUKIO TAKAHASHI ... 1443
A learning control for a class of nonlinear systems with exogenous disturbances
CHEN WEN and LIU DEMAN ... 1453
On the stability of nonlinear plants that include an observer for their feedback linearization
M. ETCHECHOURY, J. SOLSONA and C. MURAVCHIK ... 1461
Learning automata with continuous input and changing number of actions
A. S. POZNYAK and K. NAJIM ... 1467
Stabilizing control of discrete-time singularly perturbed systems
CHUN-LIANG LIN ... 1473
Fuzzy successive modelling and control for time-delay systems
MING-JYI JANG and CHIEH-LI CHEN ... 1483
Technical note: Further results on robust bounds for large-scale time-delay systems with structured and unstructured uncertainties
BUGONG XU, YONGFA FU and LI BAI ... 1491
Author index (with titles) ... 1497
